PROFILE SUMMARY

Computer Applications graduate with hands-on experience in software development using C#, C++, and C. Developed projects involving procedural systems, pathfinding algorithms, object-oriented programming, and application development. Familiar with Git, Linux, debugging, and software development workflows. Strong analytical and problem-solving abilities with a willingness to learn new technologies and contribute effectively in collaborative environments.

PROJECTS

Procedural Maze System Development | Unity, C#

- Developed a procedural maze generation system using object-oriented programming principles.
- Implemented dynamic path creation and interactive player navigation mechanics.
- Designed modular architecture to improve maintainability and scalability.
- Applied software engineering practices for clean code organization and reusability.
- **GitHub Repository:** [Project Maze V1](#)

Grid-Based Pathfinding & AI Simulation System | C#, Unity

- Built a grid-based movement system with obstacle management and navigation logic.
- Implemented Breadth-First Search (BFS) pathfinding for intelligent route generation.
- Developed responsive AI behavior and tactical movement mechanics.
- Created custom editor tools to streamline environment setup and testing.
- **GitHub Repository:** [Grid-Based AI Simulation](#)

Git Repository Management Tool | C++, Qt

- Developed a desktop Git client using Qt Widgets and C++.
- Implemented repository creation, cloning, commits, branch management, and status tracking.
- Integrated Git command execution and project management workflows.
- Designed a user-friendly GUI for common version control operations
- **GitHub Repository:** [Git Repository Management Tool](#)

SKILLS

- **Programming Languages:** C, C++, C#, Python, Java
- **Software Development:** Object Oriented Programming, Data Structures & Algorithms, Debugging & Problem Solving
Software Engineering, Version Control, Code Maintenance
- **Tools and Technologies:** Git, GitHub, Linux, Visual Studio, JetBrains Rider, Unity, Qt

EDUCATION

Bachelors of Computer Applications | CGPA: 7.01

KLS Gogte College of Commerce, Belgaum | 2022 - 2025

Pre - University | Percentage: 85%

Rani Parvati Devi College, Belgaum | 2020 - 2022

ACHIEVEMENTS & CERTIFICATIONS

Achievements:

- **Winner:** 2x Inter-College Technical Events
- **Runner-up:** 3x Tech Competitions(In-house and External)
- 3rd Best Article Award
- 8th Rank in Commerce Major

Certifications:

- [Unity Junior Programmer](#), [Cisco's Python Essentials 1](#), [Cisco's Computer Hardware Basics](#)

LANGUAGES

English(Fluent), **Hindi**(Native), **Kannada & Marathi**(Conversational), **German & Finnish**(Elementary)
